

HUNKS AND BABES STRIPPERS PRIVACY POLICY

This document discloses the privacy practices for HB Strippers .com.

What Personally Identifiable Information is Collected?

When you visit HB Strippers .com, you may be asked to provide certain information about yourself (e.g., contact and demographic information). We use this information to respond to your inquiry about our company or products.

Cookies

To enable many of the features available at HB Strippers .com, we assign "cookies" to your Internet browser. A cookie is a small text file that contains a unique identification number stored on your computer. Cookies by themselves cannot be used to find out the identity of any user. This unique identification number automatically identifies your browser - but not you - to our computers whenever you interact with HB Strippers .com. Only when you agree to provide personally identifiable information directly to HB [Strippers](#) .com through our registration form will we be able to know anything about you other than the random number that our server computers originally assign to your browser.

HB Strippers .com uses "cookie" technology to make your visits more convenient for you. You are free to reject or "Not Accept" the placement of some or all of our cookies, but you will not be able to auto-enter your email address, participate in our instant win games or customize your future visits.

There is a lot of confusion about cookies, how they are used, and what they can do. Cookies only contain information that the server computer "knew" in the first place, and can only be read by the serving domain that placed them. For instance, if XYZ.com (a fictitious company) utilizes cookies, HB Strippers .com's servers can't read their contents nor can XYZ.com's servers read ours. Cookies are an essential part of how the Internet works today, and allow server computers to recognize your computer's browser when you return. If you have ever visited a Web page that automatically provides personalized content without you having to "sign in," such as your own stock portfolio, this is almost certainly being accomplished with a cookie. Since cookies are only text files, they cannot "run" on your computer and have no ability to search your computer for other information, or transmit it to anyone.
